

## RESOURCES – Pittsburgh Shooting

Following the horrific event which took place in Pittsburgh on Saturday, The Network has received numerous calls for resources which member agencies could share with their communities.

Below you'll find a few links to resources which we have found to be very helpful when talking to children about terrorism and anti-Semitism. We are also including resources for supporting adults and older adults.

If you have other materials which you think would be helpful, please email [Megan Manelli](mailto:Megan.Manelli@network.org) and we will post on the Network's virtual Resource Library.
