

The Days of Awe are almost upon us, and while they are days of inspiration for many, they can be days of isolation for seniors and the infirm, as transportation challenges prevent them from being part of the community.

Envoy America would like to help you solve that problem. To that end, Envoy America is announcing its Better B'Yachad ("Better Together") program.

Envoy America provides transportation, PLUS assistance and companionship, for seniors and the infirm, allowing clients to stay independent, healthy and socially active - all without getting behind the wheel of a car. Envoy America provides transportation for members of your community who need a little more help, so they can truly feel a part of the community, at the time of year where the theme of community is most important.

Envoy America will go to the door and help your congregants to the car, store their walker or wheelchair if necessary, and escort them into your synagogue. We don't just pick up or leave them at the curb. If they need to make a stop on the way home, we accommodate errands as well. The level of care that we provide is of the utmost importance, one of the most popular reasons seniors use Envoy America is to escort them to medical appointments. Our drivers go through extensive training and tend to be older and very understanding of the particular needs of seniors and the infirm.

Envoy America has received numerous accolades and awards, we are most proud of being the FIRST AND ONLY RIDESHARING COMPANY to receive the distinctive Dementia SMART(r) Award from the Dementia Society of America<<http://www.dementiasociety.org/>>(r) for excellence in our driver companion training.

If we can be of any assistance to you during the high holidays, or if you think any of your congregants that could use our services any other time, please let us know, we would appreciate the opportunity to work with you to try and solve Senior Transportation, the biggest problem, after healthcare, that affects the senior community.

Shana Tovah.
