

# NETWORK OF JEWISH HUMAN SERVICE AGENCIES 2019 AWARDS

## Pillars of Excellence Awards Information & Guidelines

The Network strives to be the leading voice for member agencies and the broader Jewish human service sector by serving as the go-to resource for advocacy, best practices, innovation and collaboration. It is these 4 pillars that strengthen member agencies, enabling them to best serve their communities through a wide range of human services.

### The Network's Pillars:

1. **Advocacy** - Leadership strategy for advancing missions that require taking a public position on a cause or an issue to influence decision making.
2. **Best Practices** - Strengthening client service delivery, agency operations or governance with use of evidence based/best practice interventions.
3. **Innovation** – A thoughtful and deliberate approach to identifying solutions to challenges.
4. **Collaboration** - Building and sustaining meaningful partnerships to advance an agency's mission.

With its 2019 Awards, NJHSA is seeking sustainable, replicable and creative examples of 1 of the 4 pillars being supported by a member agency.

Submissions are due electronically to Megan Manelli, Director of Marketing and Communications ([mmanelli@networkjhsa.org](mailto:mmanelli@networkjhsa.org)) by Monday, January 7th.

Agencies must be in good standing with NJHSA. Award winners are required to send a representative to the Conference. Winners will be announced to the Network and to the broader community and will be recognized at the Conference in Atlanta.
