# NJHSA and the Workforce Benchmarking Network

## Focus Question:

Should we make information about the national Workforce Benchmarking survey available to relevant NJHSA members (and encourage their participation)?

- *What would be the added value?*
- *What engagement approach would be best?*

## Prior/Current Involvement in Benchmarking Activities:

- Atlanta
- Boston
- Columbus
- Dallas
- Denver
- Minneapolis / St. Paul
- New York
- Philadelphia
- San Francisco

# So What **IS** the Workforce Benchmarking Survey? Briefly....

- ✓ **Aggregate info on a program's participants, services and results**
- ✓ **Confidential, interactive “apples to apples” comparison reports**
- ✓ **More general information on how workforce services are currently being provided in the field, e.g., business services**
- ✓ **The basis for a virtual learning community in the field**

## **Benefits to Organizations and Local Systems**

- ✓ **Target areas for improvement** within programs and systems
- ✓ **Tell a more complete story** about your work and its results
- ✓ **Understand ways to strengthen data collection and use**
- ✓ **Learn from peers** in the field to **inform program design**

# Who Is CSW?

National organization working with DOL, states, community colleges, cities, and communities in a number of ways.

We reimagine workforce solutions to help workers, employers, and communities thrive.

**Create** custom tools

**Design** and deliver technical assistance

**Measure** workforce data to analyze opportunities and evaluate progress

**Connect** partners when collaboration is vital

# Workforce Benchmarking Network

## OVERALL GOALS

Better results for *Job Seekers, Employers,* and *Communities* through:

- ✓ Ensuring quality data is available about services and outcomes
- ✓ Building field's capacity to use data for improvement
- ✓ Elevating effective practices and strengthening networks for sharing those
- ✓ Engaging funders and policy makers in better understanding program results and implications for local systems

# The Numbers Since 2008

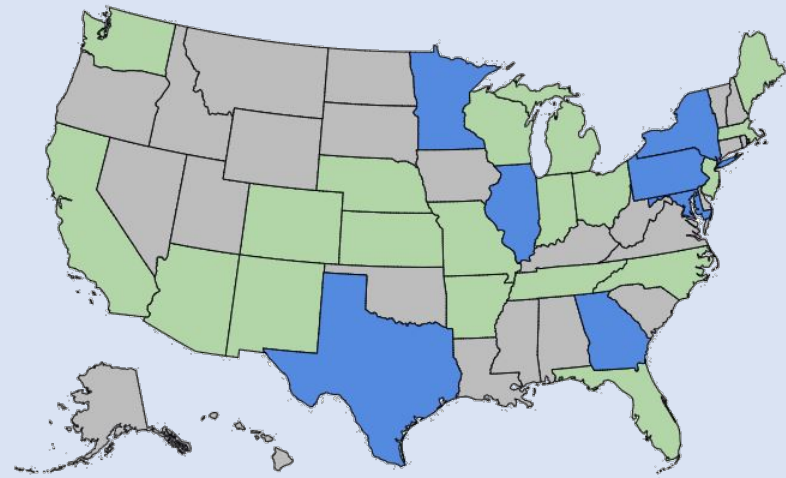

More than **500**  
**programs** at **350 CBOs**  
have participated

In **62 cities**

Across **26 states**  
and **provinces**

 Benchmarking Network  
 Network and Peer Learning activities

*Cities have included Chicago, Dallas-Ft. Worth, Detroit, Minneapolis-St. Paul, New York City, Atlanta, Greater Philadelphia and Southern New Jersey.*

# Survey Focus

(see Summary Document)

- Aggregate information for **enrollees during a recent one-year period for a designated program**
- **Types of questions** include:
  - ✓ Organizational context (type, size, income sources, etc.)
  - ✓ Enrollee demographics
  - ✓ Participant and employer services provided / intensity
  - ✓ Enrollment, completion, credential, placement and retention outcomes – *with option to report disaggregated by race/ethnicity/gender*
  - ✓ Definitions of key measures
- **Submit what you have:** option to say, “do not collect / data not available” and can update later.
- Organizations complete a **separate survey** for each program they wish to submit

# Valuable Info for Providers & the Field

- Performance rates for different types of programs: *what is “good” performance?*
- Program characteristics correlating with better results: *what matters?*
- Options of *specific reports* by geography, population, or network

# A Sample Individual Program Dashboard

## Outcome Measures

Sample Organization: Sample Program 3 - 2016-10 (Cohort Year: 2014)

# Future 2020-2021 Vision

## Phase 2: Pilot Individual-Level Data Options and Communities of Practice

- Work with interested sites to pilot use of [participant-level data](#)
- [Communities of practice](#) to inform development of survey “deep dive” questions around specific populations or strategies
- Updated [WBN Success Drivers](#) and self-assessment tools

## Phase 3: Roll Out WBN 2.0 Data Warehouse and Learning Network

- Innovative [data warehouse](#) that continuously collects data in a variety of formats, including participant level
- A data infrastructure to support [local shared measures](#) and systems change
- Connections to other useful data, including [local datasets](#) and [LMI](#)

# Discussion & Next Steps

- **There is no hard submission deadline – the data constantly updates**
- **BUT...We'd like to get a good critical mass of programs by late 2019/early 2020 to be able to generate useful reports**
- **We very much want to include NJHSA agencies!**

- *Where are your questions?*
- *What could be the value of NJHSA participation?*
- *What is the best engagement approach (e.g., a November webinar?)*
