Nonprofit Tech Readiness

A six-month cohort program focused on nonprofit professionals interested in boosting technology management and planning in their organizations.

NJHSA Cohort
Increase the internal technology management capacity of staff and provide direct support to those leading efforts to reimagine services online.
Welcome to the Online Training Center! It's the home for all your NTEN courses, 10-Week Core, and cohort-related online learning content. The content becomes available once it's opened, and you are enrolled, not at the time of registration.

Additional Support
If you have questions or would like to speak with a member of our program team, please email us.
