

Vaccinated drivers are so needed! JFS will schedule rides as they come up and continue sending open rides out to volunteers via email. Please prioritize Covid-19 Vaccine rides if possible!

The evening before the ride, please call the rider to review the details of the ride and safety procedures. Have your number or the JET Express number written down for the rider to call you for pick-up. You may not be able to go inside to let the rider know you are there.

At this time, no additional passengers are able ride with you to minimize risk of virus spread. Riders can only have additional passengers if they are spouses or caregivers living in the same home. If you can clean your car before a new rider, you may take a new rider each day.

Wipe down commonly touched surfaces - seat belts, door handles, consoles, etc. Drivers and riders still must wear masks during the ride, and JFS can provide additional masks if needed. During the ride, keep the windows cracked for air flow. If using AC, do not recirculate air in the car. Borrow a JFS Pura-Shield air filtration system to help keep virus-free air flow.

JFS will share rider information if it was provided to us. We may or may not know if a rider is vaccinated. Remind riders, vaccinated = final vaccine + waiting time (2-6 weeks depending on vaccine). Remind riders to safely keep their vaccine card. Thank you!

**JFS will provide a mini air-filtration system (USB plug) and masks for clients and drivers**

**Claim a Ride - All rides are open for clients. Please prioritize open vaccine rides.**

**Call your rider the day or evening before to confirm details.**

**Clients and drivers must wear masks - clients must sit in the back.**

**Clean your car before & after rides.**

**Do not take or store the vaccine card! You may text a picture to JET Express if client is worried about it.**

## Volunteer Safety Procedures

While we prefer to use vaccinated drivers, JET Express is still utilizing volunteers yet to be vaccinated with additional protocols. All safety procedures must be followed. If you are interested in driving and would like assistance locating a vaccine, please reach out!

The evening before the ride, please call the rider to review the details of the ride and safety procedures. Have your number or the JET Express number written down for the rider to call you for pick-up. You may not be able to go inside to let the rider know you are there.

At this time, no additional passengers are able ride with you to minimize risk of virus spread. Riders can only have additional passengers if they are spouses or caregivers living in the same home. Take only 1 new rider every 10 days.

Please clean the vehicle before and after each rider. Wipe down commonly touched surfaces - seat belts, door handles, consoles, etc. Drivers and riders must wear masks during the ride, and JFS can provide additional masks if needed. During the ride, keep the windows cracked for air flow. If using AC, do not recirculate air in the car. Borrow a JFS Pura-Shield air filtration system to help keep virus-free air flow.

The day of your ride, make sure you answer the attached screening questions. If you answer "yes" to any of the screening questions, or have unexplained or new symptoms, cancel your trip and call JET Express as soon as possible. Thank you!

**JFS can provide a mini air-filtration system (USB plug) for your car and kn95 masks (as available).**

**Claim a Ride -  
Call rider to review  
precautions the night  
before.**

**Clients and drivers must  
wear masks - clients  
must sit in the back.**

**Clean your car before &  
after rides. Wait 10 days  
before taking a new rider.**

**No additional,  
unscheduled stops.**

**Do not claim a ride if you  
answer "yes" to screening  
questions.**
