

Occupational Therapy (Pediatrics) - JCFS

The Integrated Pediatric Therapies (IPT) department works as a team with children with disabilities and developmental delays and their families to grow independence and help the person reach their greatest potential. Our clinicians also work with adults already participating in JCFS programs such as residential supports and customized employment. Work will take place at the JCFS clinic and in-homes, preschool sites, and other community settings. The minimum compensation for this position is \$65,000 annually (final offer will be based on experience).
